CAREER OBJECTIVE

Motivated IT undergraduate with strong proficiency in **Python**, Java, and AWS, seeking a role in **Software Development** or **Cloud Computing**. Experienced in building full-stack, cloud-based, and serverless applications through hands-on projects. Quick learner who adapts fast and contributes effectively to innovative, growth-driven teams.

EDUCATION

B.Tech — Information Technology

Aditya College of Engineering & Technology (ACET), Surampalem

Expected May 2027

CGPA: 8.18 / 10.0

TECHNICAL SKILLS

Python (Advanced)	File Handling, OOP, Task Automation, Data Structures, REST API Integration, Exception Handling
Languages	Java, C++
Web Technologies	HTML5, CSS3, JavaScript — Full-Stack Development
Database	SQL, DBMS
Cloud — AWS	S3, EC2, IAM, Lambda, API Gateway, DynamoDB
Tools	Git, GitHub

PROJECTS

To-Do List Application

Python · File Handling · OOP

- Built a feature-complete CLI task manager in **Python** with add, delete, update, and list operations
- Applied **file handling** for persistent cross-session storage; structured code using OOP principles for modularity and reuse
- Reinforced core Python skills: data structures, control flow, exception handling, and clean function design

Serverless Expense Tracker

AWS Lambda · API Gateway · DynamoDB

- Architected a fully serverless, real-time expense tracking application on AWS
- Integrated **Lambda** for backend logic, **API Gateway** for RESTful endpoints, and **DynamoDB** for NoSQL data storage
- Optimised for cost-efficiency and auto-scaling with zero server management

Doctor Appointment Web Application

HTML · CSS · JavaScript

- Developed a responsive full-stack web app for booking and managing appointments
- Implemented frontend-backend integration, form validation, and a clean, accessible user interface

Hotel Management System

Java · OOP

- Built a menu-driven console app managing room bookings, billing, and customer records using core OOP concepts

CERTIFICATIONS & ACHIEVEMENTS

- **HackerRank Certified** in Python, SQL, and JavaScript
- **AWS Cloud Internship** – APSSDC | **Google Data Analytics** Certificate | NPTEL: Cloud Computing, IoT
- **Hackathons:** EY Techathon, TensorX 2026 National AI Hackathon, Flipkart Runway Season 5
- **Unstop CodeClash Winner** — Rank 599 | Flutter Workshop Participant

STRENGTHS

- Problem Solving
- Quick Learner
- Team Collaboration & Communication
